- more energy and vitality
- Spiritual alignment and Transformation

DYNAMIC TRANSFORMATIONAL WORKSHOP

Years of stress, fear and modern living cause our breathing to shut down and become restricted; thus limiting our life's vitality and health.

You will not only learn about your own unique breathing pattern, but what it represents in your life and behavior. Thus by learning to breathe differently significant changes occur in your being and experiences. Individual personal coaching allows you to reclaim your natural open flowing breath, which in turn allows you to reenter the synchronistic flow of life.

Once open, the breath then becomes a vehicle to transform suppressed negative material lodged in the subconscious. Ultimately, Transformational Breath creates openings to higher levels of consciousness and spiritual expressions.

This evening is a perfect way to learn about the many aspects of better breathing and the ways you can use your breath to enhance all areas of your life. Individual sessions are available following this afternoon workshop.
